

Lokesh P S

Senior Frontend Developer | React.js | 4+ Years Experience

📍 Bangalore, India ✉ ps.lokesh29@gmail.com ☎ [+91 9972640389](tel:+919972640389) 🔗 [LinkedIn](#) 🔗 [GitHub](#) 👤 [Portfolio](#)

Profile Summary

Frontend Developer with 4+ years of experience building scalable and high-performance web applications using React.js and modern JavaScript. Proven expertise in end-to-end UI development, including design, development, and production deployments on AWS (EC2, ECS, S3, Parameter Store). Experienced in handling client interactions, resolving production issues, and delivering optimized user experiences. Demonstrated ability to independently drive UI initiatives and contribute to technical hiring through interviews.

Technologies

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Redux Toolkit, React Hooks

Web Technologies: REST APIs, Responsive Web Design

Cloud & Deployment: AWS (EC2, ECS, S3, Parameter Store, Cognito, CloudWatch, RUM)

Tools & Platforms: Git, GitHub, VS Code, GitHub Copilot, Node.js

Performance Optimization: Code Splitting, Lazy Loading, Performance Tuning

Professional Experience

Senior Associate Consultant (Frontend Developer)

Bangalore, India
Oct 2025 – Present

Infosys Limited

- Led end-to-end UI development independently using React.js, owning architecture and delivery of scalable components
- Improved application performance using lazy loading and optimized rendering techniques
- Managed AWS deployments (EC2, ECS, S3) and handled production releases with minimal downtime
- Integrated AWS CloudWatch RUM to monitor user interactions, page loads, API errors, and performance
- Configured AWS Parameter Store for secure environment configuration
- Acted as UI SPOC, directly interacting with clients to understand requirements, provide solutions, and resolve production issues
- Provided continuous UI support to clients, ensuring smooth onboarding, quick issue resolution, and improved user experience
- Conducted technical interviews and contributed to frontend hiring and team growth

Senior Product Engineer

Bangalore, India
Mar 2022 – Oct 2025

Tata Consultancy Services Limited

- Developed scalable and reusable UI components using React.js, TypeScript, and Redux Toolkit for enterprise banking applications
- Built configurable no-code/low-code widgets for ADK Designer platform enabling dynamic application development
- Delivered frontend solutions for BNI (Bank Negara Indonesia), developing modules across Accounts, Cards, Transfers, and Services
- Improved UI performance through optimized rendering and memoization techniques
- Ensured code quality through unit testing (Jest) and best practices
- Collaborated with cross-functional teams to deliver production-ready releases
- Mentored and guided a team of ~10 developers on UI development and best practices
- Contributed to build, deployment, and defect resolution, ensuring smooth releases
- Received Applause Award and Star of the Month for handling critical issues and timely delivery

Projects

- **ShackAI Web Application (Shake Shack – Infosys Project)**
 - Developed UI for ShackAI web application, enabling account creation and user interaction flows
 - Built dynamic and responsive interfaces using React.js for multiple AI-driven use cases
 - Integrated streaming backend responses to render real-time data updates in the UI
 - Collaborated with backend teams to ensure seamless API integration and data flow
 - Worked closely with stakeholders to refine UI based on business requirements and feedback
 - Delivered smooth and optimized user experience for AI-based interactions
- **ADK Designer (No-Code Low-Code Banking Platform)**
 - Developed a no-code/low-code platform enabling users to build applications using drag-and-drop widgets
 - Designed configurable UI components supporting multiple use cases and dynamic configurations
 - Built reusable component architecture to improve scalability and development efficiency
 - Enabled rapid application development for enterprise banking solutions
- **BNI (Bank Negara Indonesia) – Banking UI**
 - Delivered client-specific UI solutions using the ADK platform for enterprise banking applications
 - Developed modules across Accounts, Cards, Transfers, Payments, and Admin functionalities
 - Ensured secure, consistent, and user-friendly experience across banking modules
 - Resolved critical production issues and implemented defect fixes and change requests
 - Received Applause Award for handling priority issues and production support
- **Admin Tool (Back Office Web Application)**
 - Developed a back-office web application for managing organizations, users, and operational data
 - Built role-based access features for B2B users based on organizational permissions
 - Implemented CRUD operations for entities like users, farmers, and organizations
 - Designed data visualization features including state-wise map integration using point and polygon formats
 - Enabled data export and search functionalities for efficient data management

Education

Bachelor of Engineering in Mechanical Engineering

University Visvesvaraya College of Engineering, Bangalore University
Bangalore, Karnataka | Aug 2016 – Oct 2020

Certificates

- GitHub Copilot Certification
- React – The Complete Guide 2025 (incl. Next.js, Redux)
- The Complete JavaScript Course 2025: From Zero to Expert
